U.S. Patent No. 7,078,701 B2

Request For Certificate of Correction of Patent

US application Serial No. 10/762,611 was filed with the USPTO on January 21, 2003, which subsequently matured into US Patent 7,078,611 ("the '702 patent") on July 18, 2006. Prior to issuance of the '702 patent, all of the provisions required for claiming foreign priority under 35 U.S.C. § 119 on earlier Japanese application 2003-017807, filed January 27, 2003 were timely completed.

On December 13, 2005 and April 21, 2006, the USPTO issued a non-final Office Action and a Notice of Allowability, respectively, each of which explicitly acknowledged (1) the claim for foreign priority and (2) that all of the certified copies of the priority documents had been received. A copies of the above non-final Office Action and Notice of Allowability are attached hereto for your convenience.

CONCLUSION

In view of the above discussion, Patentees hereby request that the attached Form PTO-1050 be approved and that a Certificate of Correction be issued adding the foreign priority data to the Title Page of the '702 patent.
